

Greetings from Georgia 811,

At Georgia 811, our mission is to keep Georgians safe and connected. There are many Georgians that are not aware of the Georgia dig law or the free services provided by Georgia 811 and its member utility companies to keep residents safe while digging. We are emailing you today about your city's website and hope that you can provide information on your website about Georgia 811 so your citizens can stay safe and connected.

To help make it easy for you, we have created a resource page on our website where you can find information about Georgia 811 to post on your website along with logos you can download and "copy and paste" code for many different logos and graphics for Georgia 811.

You can view our resource page at: <http://georgia811.com/ga811resources.aspx>

If you already have information about Georgia 811 on your website, we request that you still view our resource page to make sure your information is current and includes information about our recently created eRequest online form where Homeowners can contact us without having to call 811.

Once you have posted Georgia 811 information to your website, please let us know so we can share the news and our gratitude on our social media accounts!

We apologize if this email is reaching you in error and would request that you forward it to the person responsible for your city's website.

If you have any questions or need any assistance, do not hesitate to contact me and I will be glad to help. Thank you for your time and we hope that you will join us in our effort to make Georgia a safe digging state. Damage prevention is a shared responsibility.

Regards,

Brian Crews
